

# Alex Cherkaskyy

## SEO & AI Automation Lead

**Address:** Turku, Finland.

**Website:** [cherkaskyy.com](https://cherkaskyy.com) | [LinkedIn Profile](#)

## Professional Summary

SEO & AI Automation Lead with 18+ years of experience in SEO, web development & digital marketing. Currently working on enterprise SEO & AI SEO at **Reuters**, combining SEO strategy, analysis & implementation with workflow automation, API & MCP integrations, and custom tooling. Develop & maintain SEO & AI SEO analysis & automation platforms, create automated/semi-automated reports & onboard teams & stakeholders. Work closely with product, engineering & data teams and third-party vendors on implementation. Advise stakeholders & leadership on key SEO & AI SEO decisions.

Across my career, worked with 90+ businesses across 20+ industries worldwide, primarily in the USA, delivering organic search traffic growth from 20% to 550% with a focus on revenue & ROI. Agency, in-house, startup, consulting & personal projects have built extensive experience in international/multilingual SEO, content strategy, digital growth & web development. Apply that background to AI-assisted content creation & quality-control workflows, and marketing automation for lead retention & retargeting across websites, social media & CRM systems.

## Work Experience

### SEO & AI SEO Specialist

Reuters - global News & Media organization (Spain/Turku, Finland | remote) 09.2025 - present

- Enterprise SEO & AI SEO in a multi-product, multilingual & multi-vertical environment with >10M pages & >15M monthly organic search visits.
- Develop & maintain enterprise SEO & AI SEO analysis & automation platforms using APIs & MCP integrations, and onboard teams & stakeholders. Use Claude Code & internal AI tools daily for analysis, coding, automation & application development.
- Create dashboards & automated/semi-automated reports with actionable SEO & AI SEO insights. Report to leadership on performance across traditional & AI-first search, and advise on key decisions & industry developments.
- Develop & implement technical & other scalable SEO & AI SEO solutions, working closely with product, engineering & data teams and third-party vendors. Provide recommendations & implementation plans, and oversee execution.
- SEO support for complex website migrations involving 1M+ URLs.
- Configure enterprise SEO tools for issue detection & analysis, and assign identified issues to the appropriate specialists for resolution.
- Support the Commercial team with AI SEO for commercial content across multiple verticals.

### SEO, AI SEO & Growth Consultant

Self-employed (Montenegro/Spain/Turku, Finland | remote) 04.2024 - present

- Enterprise SEO and AI SEO for the leading global News & Media company.

- Build workflow automations for SEO, AI SEO & growth marketing, including projects in software, AI & healthcare technology.
- Develop marketing automation workflows for lead retention & retargeting across websites, LinkedIn & CRM systems.
- Develop content strategies, including AI-assisted workflows to improve content creation & quality control.
- Develop & implement SEO, AI SEO & digital growth strategies.
- Educate & advise stakeholders on SEO, AI SEO, growth marketing & automation.
- Test new approaches through personal SEO, web development & automation projects, including AI tools & APIs.

## Senior Growth Marketing Specialist / Webmaster

KASI Technologies Inc. (Canada/international digital office in Podgorica, Montenegro) 06.2023 - 03.2024

- In 10 months, successfully completed 5 website migrations for the holding's existing websites & those of acquired companies (3 of them with a redesign). Developed 1 website from scratch. Improved SEO, achieving 20-50% target traffic growth, and significantly enhanced speed performance.
- Optimized websites for better scalability and maintainability using cutting-edge WordPress solutions like GeneratePress Premium and GenerateBlocks Pro.
- In 3 months, completed the digital transfer of the acquired industry pioneer global brand (Cooperheat) from a multi-billion company (Stork) to the newly established one (Cooperheat Equipment Ltd.). Developed and launched a basic version of the website with a recreated design in 12 days.
- Within 10 days of allowing the website for indexing by Google, it averaged 3rd position for the primary brand query in primary locations. In 1 month, it ranked 1st and began capturing most brand search traffic. Achieved this goal thanks to heavily utilizing a combination of my SEO and Web Dev expertise.

## SEO Specialist

ComeBack Mobility - MedTech startup (USA/Ukraine | remote)

09.2021 - 12.2021

- Conducted a technical SEO audit of the MVP website. Within 2 weeks removed the most critical technical SEO blockers, enabling content SEO work to proceed.
- Ran initial keyword research to clarify the target search demand for a brand-new product (with no direct analogs on the market). Built a semantic core and clusters for landing pages, blog, supporting content, and PPC campaigns.
- Built a content plan and managed the content creation workflow (In-house and freelance writers).

## SEO Specialist / Digital Marketer

DesigningIT - full-service digital agency (Charleston, SC, USA | remote)

04.2018 - 05.2021

- Conducted SEO audits, keyword research, competitor analysis, built and implemented SEO strategies for 70+ clients worldwide (mainly in the USA). From small local businesses to big companies like [Homes Direct](#) (traffic growth - x5, leads growth - x28 in 2 years) or [Gulfstream Aerospace](#) (implemented by the client, traffic growth - x2 in 2 years). Delivered informative and client-friendly reports at each milestone.
- Efficiently managed the process of fixing technical issues and implementing updates and new features by developers. Assisted other SEO specialists in the team in collaborating with developers on their projects, helping to avoid potential delays and incorrect implementations.

- Built content strategy, managed the content creation workflow, efficiently collaborating with in-house and outsourced writers.
- For complex and long-term projects, acted as a non-client-facing Project Manager, leading a fluid team of dedicated specialists: Front-end developer, Back-end developer, DevOps, Web designer, and Marketing Specialists.

## Education

2000 – 2004, Mykolayiv, Ukraine.

European University of Finances, Information Systems, Management & Business.
